

ENERGY STATION 50 Ah

Article N° 1 382

Supplier : **GYS**
Type : **BOOSTER POWER PACK 1300**

State of the article : **6.0 New** Number :

The POWER PACK 1300 is a portable energy station that combines a Lithium-Ion (LiFePO4) battery and a Pure Sinus Wave (PSW) converter to recharge or power all types of electronic devices (1000 W continuous, 2000 W peak). It restores a continuous voltage of 12 V and a 230 Vac power supply. Its big storage capacity gives it the autonomy necessary to maintain most electrical appliances charged or in operation under all circumstances. It is also a booster for 12 V vehicles. It can be recharged in 3 ways: 230 V charger - USB Type-C - solar, to keep the station ready for use in all circumstances

Light function: yes
Battery capacity Ah: 50
Output DC, Jack: 2x12 V / 10 A
Usage time: 50W - 20h, 100W - 10h, 250W - 4h, 500W - 3h
Output 1 USB (white): 3x5 V / 2.4 A
Output: Jumper Cable
DC output, cigarette lighter: 12 V / 10 A
Duration full charge h: 7 - 11
Battery capacity Wh: 1280
USB Type C output: 2x5 V / 3 A - 9 V / 3 A - 12 V / 3 A - 15 V / 3 A - 20 V / 5 A
AC output, universal: 3x230 V / 50 Hz / 500W, 2x12 V / 10 A
Input Jack: 2x12V / 30V
Output 2 USB (blue): 5 V / 3 A - 9 V / 2 A - 12 V / 1.5 A
