

MANUAL HYDRAULIC PUNCHING MACHINE

Article N° 1 731

Supplier : **ALFRA**
Type : **AKKU COMPACT FLEX**

State of the article : **6.0 New**

Number :

Convenient manual hydraulic system with 18 V high-power battery for punching round, square and rectangular holes in construction electrical cabinets and control panels.
Extremely practical and light thanks to the very resistant aluminum head.

Lightweight and practical, only 2.5 kg with battery cell.
With pressure relief valve.
High power drive motor with ergonomic "Softtouch" handle.
The battery cells can be inserted from two sides, so as to balance the weight.
Technical data:

Punching
Round hole:
up to 82 mm Ø
3.0 mm normal steel (S235)
2.0 mm stainless steel (F = 600 N / mm²)
89 - 120 mm Ø only with special screw * and spacer sleeve *
2.0 mm normal steel (S235)
1.5 mm stainless steel (F = 600 N / mm²)
Special shaped hole:
68 x 68 mm
3.0 mm normal steel (S235)
2.0 mm stainless steel (F = 600 N / mm²)
